Brandenburger Tor, 1989 @Landesarchiv Berlin

„We celebrate two anniversaries – 70 years ago, Stalin invented the embargo of Berlin. The Allies responded to it with the famous Air Lift. It was tough times for all the people involved. What was all this about? 30 years ago, the Berlin wall came down. A historical and very emotional event which was recognized world-wide. What in fact made this event happen? With this tour I will proof to you how entertaining history can be. On our relaxed drive through the city we will also find a nice spot to have a cup of coffee.“

“During our Tour through the divided Berlin, which until the fall of the Berlin Wall was the front city of the cold war, we will see remaining parts of the Wall, visit historical places and hear thrilling stories. Stories about people who fled to the west or were separated from their loved ones through the wall. Moreover, you will learn about the consequences the Wall had for the city and how Berlin is developing since the fall of the Berlin Wall.“

„Large-scale murals, colorful writings, tiny figures or Guerrilla knitting - Streetart is the most versatile expression of urban lifestyles. In the nineties, Berlin started to emerge as a center of creativity and to this day the city magically draws in young artists from all over the world. Especially the hip neighborhoods of Berlin display a dazzling array of forms and messages.“

Let your guide take you along to discover this urban artform away from the main tourist spots and dive into the creative diversity of streetart in Berlin!“
